NEWLY BUILT addition to Colonial Nursing Home.

VOTERS MUST REGISTER BY OCTOBER 7

October 7 is the deadline for registering to vote in the November 7 general election, according to Valter White, Milam County tax assessor - collector.

A person must be registered 30 days before any election, according to state law.

Voters who have a certificate issued since October 1971, do not need to register again.

Under a new state law a voter certificate is renewable by voting in any election.

If a voter has lost his registration certificate or has changed address since the certificate was issued, he should notify the tax office in Cameron.

Applications for new registrations may be obtained at the Milam County tax office in the courthouse at Cameron.

Nursing Home Sets Sunday Open House

An open house will be held Sunday afternoon from 2 until 5 at the Colonial Nursing Home to show its new addition which was recently completed.

The addition houses 26 double bedrooms, increasing the home's capacity from 32 beds to 58 beds. The new addition adds approximately 11,000 square feet to the nursing home.

A colonial theme will be carried out in the addition's living room and dining room, with colonial furniture in the rooms.

The double bedrooms are cheerful with bright pastel walls instead of hospital white. Each will have a curtain between the beds for privacy, and are wired for telephones and television.

A new kitchen is also housed in the addition, with the old kitchen

turned into a laundry room.

The bathrooms feature either large tiled shower stalls or centered tubs with space on each side for aides to help patients bathe. The shower stall is built to accommodate a wheel chair if necessary.

An automatic fire alarm is built into the addition, with smoke sensors to touch off the alarm. Doors between wings will automatically close and the alarm will show at the nurses station.

William Watkins, administrator of the nursing home, said the addition will call for 30 more employees when it is operating at capacity.

Owners of Colonial Nursing Home are Watkins, Dr. S. H. Richardson, James Camp, and Narvie Caperton.

Police Report Accident, Stolen Cars

Police investigated a two-car collision Sunday night at the intersection of Jefferson and Fourth Sts. Two children riding in one of the cars were taken to a local hospital.

The collision occurred between a car driven by Maggie Cavazos of Cameron and a pickup driven by Johnny Pratt, also of Cameron.

The Cavazos vehicle was attempting a left turn when it was struck in the rear by the pickup. Two Pratt children, Betty and Eugene, were taken to a local hospital for treatment of possible fractures.

STOLEN CARS RECOVERED

In other police news, Chief Felipe Martinez reported the recovery of two stolen autos. One was stolen from Hertz Rent A Car at Houston. Its driver, Johnny Sullivan of Houston, was stopped in the city for driving while intoxicated and was arrested by Patrolmen Wayne Brinkley and Bob Pilkey.

The other car was stolen in Hearne and was stopped in Cameron when its driver, Marcos Perez Jr., of Hearne, was arrested by Brinkley for driving while intoxicated.

GUNSHOT WOUND

Walter McMeans of 1010 S. Burleson was taken to a local hospital early Tuesday morning suffering from what was described by city police as a self-inflicted gunshot wound.

Police Chief Martinez and Officer Pilkey answered a call to McMeans home about 2:45 a.m. where they found him with a wound on the side of his stomach. The weapon used was a 20 gauge shotgun.

City Adopts \$333,561 Budget

The city council has adopted a budget of \$333,561.99 for the fiscal year beginning October 1. That figure excludes budgets for the water and sewer departments.

The budget was adopted at a special meeting for a public hearing on the budget Tuesday evening.

Largest income items to the city include \$128,547.58 for assessed valuations and \$46,594.15 for the general fund as of October 1. Other income items include \$16,000 franchise tax, \$18,000 police fines, \$55,000 garbage collections and transfers from the water and sewer department bonds. Another item is an

estimated \$62,000 from the one percent sales tax.

Other income, in smaller amounts, include such items as delinquent taxes, taxi permits, electrical and plumbing inspections, sale of cemetery lots, dog licenses, among numerous other sources.

Biggest expense in the street department budget is \$32,500 for labor. That budget totals \$57,562.50. The cemetery department is budgeted at \$7,895, up from last year with funds added to purchase new equipment for keeping the cemetery clean.

Budget for the fire department is \$15,675, about the same as last year. This includes funds put aside for the future purchase of a new truck.

Police department budget is \$53,500, up from last year. This reflects recent salary increases to personnel in that department, and includes funds for a new police car.

Salaries for administration have also been raised, with that budget set at \$26,653.13. Utilities will cost \$15,000 and \$51,900 is budgeted for the sanitation department.

Recreation department, including both parks, totals \$2,824 and salaries for city attorney and city judge are set at \$3,000. The city pays \$1,440 to the Milam County Health Unit and \$5,000 to the library.

Office expenses are estimated at \$13,236.89 and miscellaneous to budgeted at \$11,576. The trash department is budgeted at \$12,100 and the contingent fund totals \$10,816.98.

The anticipated schedule of work for 1972-73 totals \$45,382.49, and includes street paving, furniture for city hall, funds for Ledbetter Park, Urban Renewal project, pledge to Industrial Foundation, payment for sanitary land fill, first payment on maintainer and tax on police fines.

Bentsen Asks Investigation Of Mail Service

At the request of U. S. Sen. Lloyd Bentsen, the General Accounting Office (GAO) will send investigators into Texas in October to examine operation of the U. S. Postal Service in the State.

"Mail service, particularly in Texas, appears to have deteriorated greatly within the past two years and this inquiry will help determine the extent and the reasons," Bentsen said.

The GAO is an independent, non-political agency in the legislative branch of the government. It is concerned with keeping tabs on how federal departments and agencies carry out the intent of legislation enacted by the Congress.

"Its postal investigation in Texas is a follow-up to a preliminary survey made by my office this summer after I had received numerous complaints about mail service," Sen. Bentsen continued.

Bentsen said his office mailed more than 200 first class letters from Washington to points throughout Texas. Simultaneously special delivery letters were mailed from Austin to the same recipients.

The preliminary test showed that 45.6 percent of the first class letters arrived with or before those sent special delivery.

"In other words, in almost half the cases the first class letter--which traveled a much greater distance--was delivered at the same time as the letter sent special delivery, or before the letter sent special delivery," Bentsen said.

"Incidentally, the test also raised some questions about the advantages of using Zip Codes since the first class letters had no Zip Codes and the special delivery letters did," he added.

Chamber To Host After-Game Coffee

The Cameron Chamber of Commerce will host an informal after-game coffee honoring the staff and administration of the Cameron Independent School District Friday, September 29.

The coffee will be held in the Homemaking Building on the Yoe High Campus.

Alcoa Plans Sheet Ingot Casting

Aluminum Company of America, with its biggest domestic smelter at Rockdale, has announced plans to install a multi-million dollar sheet ingot casting facility at its Central Texas aluminum making complex.

Fred Bergeron, Rockdale Works manager, said the unit will permit the casting of 30-foot ingot weighing 40,000 pounds.

It will be shipped to Alcoa fabricating plants in the midwest to be rolled into a variety of sheet products, including foil, building siding and container or can stock.

Thomas J. Hormuth, presently assigned to a new aluminum plant project in Seebree, Ky., has been named construction manager of the local expansion. He will report to Rockdale about November 1.

The new facility, to be housed in Rockdale's present ingot plant, will consist of four 60-ton furnaces, a large vertical casting pit, and overhead bridge crane and related casting equipment.

Only the firm's Tennessee operation and Rockdale Works are scheduled to have the new sheet ingot casting facility, Bergeron said. The Tennessee unit is under construction and will be in operation by December.

Planning is underway locally and by Alcoa's construction division in Pittsburgh to set up a timetable and award contract on the local expansion.

Bergeron predicted that the facility will be in production by the spring of 1974.

"We are delighted that Rockdale Works was chosen as the site for

this new, important expansion in the company's primary products division," Bergeron said. "It's another demonstration of Alcoa's faith in the future of this plant, its management and labor force and an understanding community which has provided an excellent business climate for growth the last 20 years."

No increase in employment is expected since the larger casting units will replace a smaller one, and possibly other related equipment.

UF Aids Red Cross

(Another in a series about United Fund agencies served by the local fund drive. The house to house drive will be held starting Monday, October 2.)

The American Red Cross, which is allocated \$2,300 in the United Fund budget, works on a local level with local money.

Telephone calls and telegrams, most of them contacts made for servicemen and their families, are paid out of local funds, contributed in United Fund drives.

Less than half, or about 46 percent of local funds are sent to the National American Red Cross program. This money is used for disaster relief in instances such as hurricanes, tornadoes, or floods.

A large part of the funds goes to finance the county blood program.

Cost of the vital blood program

However, Bergeron said the new facility will broaden the plant's capability and strengthen its competitive position among Alcoa's network of domestic primary aluminum smelters.

OUR FACE IS RED

The tax figure in the Monday Herald story about school taxes should have been \$70, not \$62. This is what tax on a \$10,000 home would be if the school bond issue passes and a new tax rate of \$1.40 is set.

to the county Red Cross unit is about 12 1/2 cents per capita, based on the census. This amounted to about \$1781 during the blood year, July 1, 1971 to June 30, 1972.

The cost is for collecting and processing blood donated by countians, and for replacing blood used by patients in out-of-region hospitals.

During the last blood year usage in county hospitals totaled 307 units. Out-of-region calls on the blood bank totaled 384, making the whole county total 691 units.

Breakdown of hospital totals shows St. Edward Hospital using 98 units, Newton Hospital 86, and Richards Hospital at Rockdale 123 units.

Other services extended through the local Red Cross include emergency loans to servicemen who may have to fly home and return to their stations. Most of these loans are paid back, but a few always have to be written off.

Mammie Yoakum's 'Good'....

Mammie Yoakum often says that "good is better than evil because it's nicer."

We are not sure what Al Capp is saying when he puts such words into Mammie Yoakum's mouth. But her son, L'il Abner, is always doing what he thinks (?) is right in and around Dog Patch. He is some kind of physical phenomenon with a vacuum between his ears. So is Pappie, only in a lesser sense.

But diminutive Mammie is the one that sets things really right when the males bumble themselves into a corner, a cave or off a ledge.

Mammie is very good with her fists, scrawny as she is. She mesmerizes herself in-

to visions and comes up with such homilies as "good is better than. . ."

Capp may not think much of males or he may not think much of himself, or both. But in his way, Capp has anticipated women's lib with a prototype considerably older than the slick magazines depict in the modern women's movement. He leaves little doubt about who runs the affairs around Dog Patch.

The thing Mammie solves with her intuition and powerful whallops is that "good" is equated with "nicer" when you have the strength to make the equation come true.

Capp is a smart man.

More Than 'Either Or'....

The Cameron Day Care Center is the latest addition to new services and facilities here.

It serves children 3 to 5 of women needing to work.

By indirection, it is serving employment in Cameron and direction is giving real help to people by enabling women to find time to get a job they need.

Considering that Milam

County has an unemployment rate among the lowest in the nation, additional work force, women or men, is important at this time to serve growth prospects in light industry here.

It is another example of a service institution giving more than an "either or" assist to people. It enables both care for pre-schoolers and worktime for some of the family.

"Low Down" FROM THE Congressional Record By JOE CRUMP

(A Column for Readers Who Haven't Time to
Review the Congressional Record Daily)

USERS VICTIMS OF UTILITY RATE PLOY

SENATOR LEE METCALFE (Mont.) "... The Michigan Public Service Commission recently issued a significant order which requires utility STOCKHOLDERS RATHER THAN THE CUSTOMERS to pay costs of advertising related to Detroit Edison's rate case.

"This order will be of interest in numerous States where utilities have burdened their customers with the cost of such advertising in preparation for rate cases at which customers pay for the utilities experts but are not themselves adequately represented or financed.

"This imbalance would be redressed by passage of S. 607, the utility consumer's 'facts and fund' bill, upon which hearings have been completed by the Senate Subcommittee on Intergovernmental Relations, or the House companion, H.R. 7444, which is before the House Interstate and Foreign Commerce Committee.

"Meanwhile, however, the Michigan decision may be of some assistance to rate case participants in other States which have not yet adopted this sensible and fair approach. It is significant to note that the Michigan

commission also has decided to investigate allegations that utility ads have been 'false, misleading and deceptive. . . . I ask unanimous consent to have printed in the Record an article from the Bulletin of the National Association of Regulatory Utility Commissioners regarding this matter and the opinion and order of the Michigan commission in this Detroit Edison case. . . . (Excerpts follow.)

MICHIGAN PSC ORDERS DETROIT EDISON STOCKHOLDERS TO PAY FOR RATE CASE ADVERTISING

The Michigan Public Service Commission has directed the Detroit Edison Company to charge the cost of advertising related to its current rate case to its stockholders. The Commission also directed Detroit Edison to refrain from any further advertising concerning its pending application for a \$70.1 million rate increase.

Three intervenors in Detroit Edison's rate case -- the State Attorney General, City of Detroit and UAW-Michigan CAP--filed a motion on December 14 objecting to the utility's ads and so-called "lobbying" activities.

"Edison nor any other utility involved in a rate case before this Commission should be allowed to pass on to its customers the cost of advertising the need to increase their rates," Com-

missioner W.R. Ralls said.

CRUMP'S COMMENT

Unless ads promoting a rate increase are charged to the stockholders the utility customer finds himself in the position of paying for efforts to increase his utility bill.

Fiddle Festival

There will be a fiddle festival and country music session October 7 at the New Baden Community Center at New Baden.

Grand prize in the fiddlers contest will be \$40, with prize money for three divisions -- 15 years and under; 16 through 60; and 61 and up.

A free flea market will be held along with a turkey shoot. Ammunition will be furnished. Guests can dine on a barbecue plate for \$1.

Some of the bands supplying entertainment include The Westerners of Hearne, Charles Ellison and the Countrymen of Franklin, and Earl Garner and the Blue Grass Mountaineers.

VA Hiring Viet Vets

Nearly 17,000 Vietnam Era veterans have been hired by the Veterans Administration to work in its hospitals, regional offices, and assistance centers.

In making the report, Jack Coker, Director of the Waco Veterans Administration Regional Office, noted that

in the previous year, VA had only 7,800 Vietnam Era veterans on its employment rolls.

Many of the young veterans are being hired for duty in VA assistance units where recently discharged veterans ordinarily would first contact VA. Coker pointed

out that as of August 1, 1972, about 25 percent of these employees were Vietnam Era veterans, an increase of 15 percent over a year earlier. As vacancies occur in these units, emphasis is being given to the hiring of young ex-service-men and women.

VA is also on the lookout for young veterans with special skills in medical or para-medical fields.

OLD PHILOSOPHER

Dear editor:

I don't know whether it'll work or not, but as I understand it the Democrats and the Republicans are trying to finance their campaigns by suing each other.

First the Democrats sued the Republicans for a million dollars after the bugging incident at their headquarters, then the Republicans sued the Democrats for two and a half million for suing them, and at the last count the Democrats had re-filed their suit and upped their figure an extra two million.

As the campaign gets hotter and expenses mount, both parties ought to keep raising the ante so that when the race is over each will collect from the other enough to pay all the bills, less the lawyers' fees.

Some people think this doesn't make sense but that's because they aren't up on modern financing.

Take revenue sharing. As I understand it, the cities are all clamoring for Federal aid, saying they can't meet their bills and may go under without it. Washington is therefore considering dividing part of its revenue among them, when actually it hasn't got anything to divide; it's already operating in the red and running on borrowed money.

But that's beside the point in modern financing. The way you do it is simple: go ahead and write the checks, just so you don't exceed the sta-

tutory debt ceiling, and the way to stay within the ceiling is to keep raising it.

Understand, I'm not opposed to helping the cities, although I don't see much future in it. They may be in the same shape farmers were. Small, family-size farms were marginal, the experts used to say, and they ought to go under, let the big farms take over, they're more efficient. Small towns are marginal, they said, the future lies with the big cities. Well, some of the big farms, like the big cities, aren't doing so well.

Russia for example is just one big farm and you know where she's buying her wheat.

Yours faithfully,
J. A.

Out of Orbit

Where the west wind blows clean, across wide open spaces. And majestic pines and pecan trees grow green and lofty along rolling Texas hills. Texas... a good place to call home. And Texans are proud of it.

TP&L shares Texans' special pride in a natural environment. And the Company is working to preserve all the environmental assets possible while providing adequate electric service throughout the territory.

Air monitoring devices have been installed at lignite-fired generating plants as an aid in air quality control. Also, these plants have been

equipped with electrostatic precipitators, devices which will remove substantial amounts of particulate matter from stack emissions. These efforts will help keep Texas air pure and healthful.

To help conserve the natural landscape in every way possible, substations are low-profile structures with underground distribution facilities, screen-type fences and

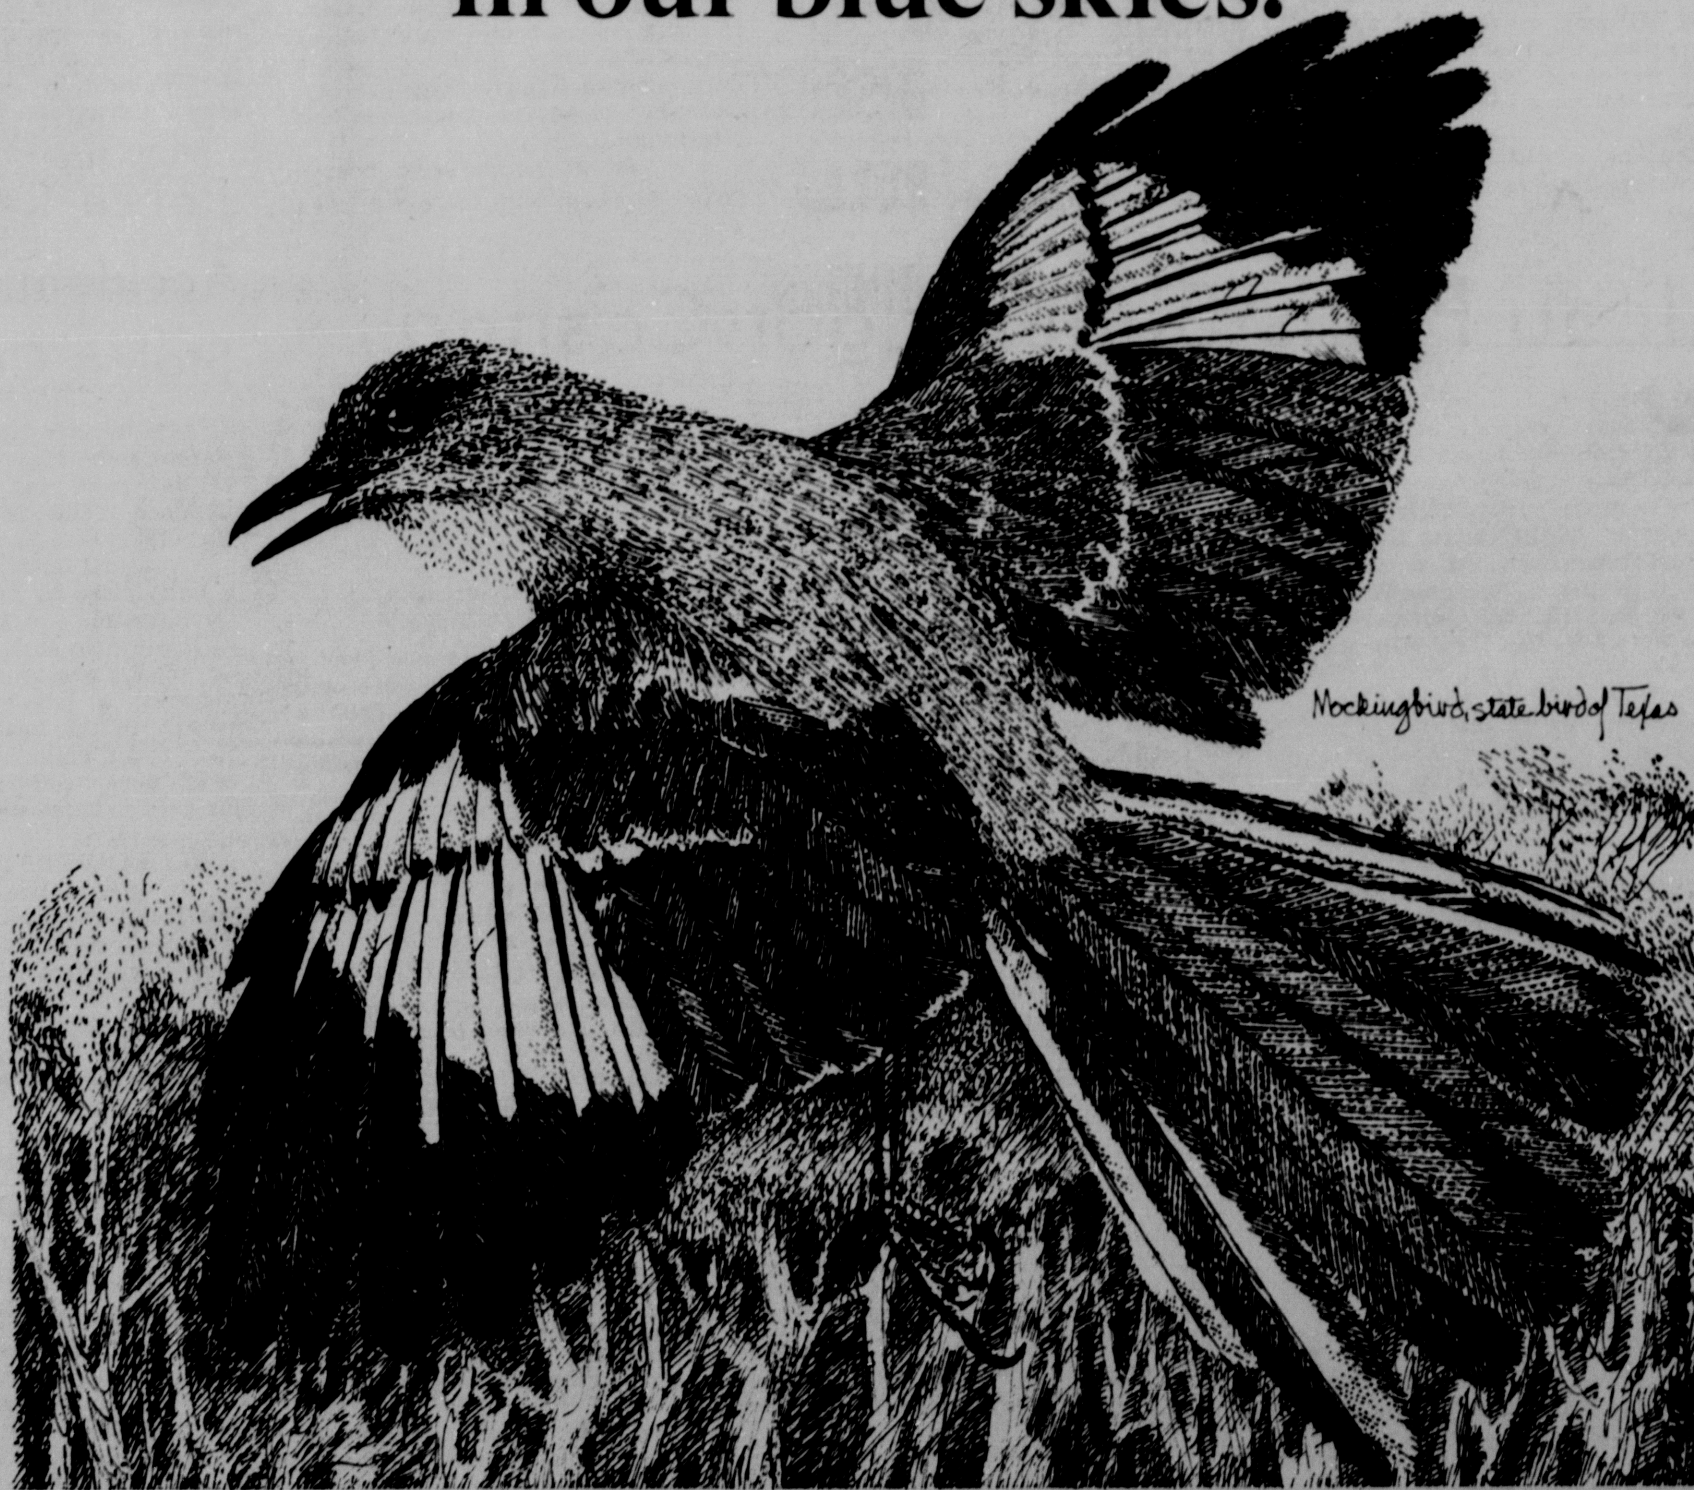

extensive landscaping. Plant-site lakes are stocked with fish and opened to the public. An experimental catfish farm has been set up at the Trinidad generating plant.

Texas Power & Light Company is pleased to work with Texans to preserve a treasured environment.

IT'S A FACT: During the past twenty years, the costs of many materials and items of equipment purchased by Texas Power & Light Company to produce and supply electric power have risen more than 100%.

TEXAS POWER & LIGHT COMPANY
A tax-paying, investor-owned electric utility

The pride of Texas found a home in our blue skies.

Mockingbird, state bird of Texas

Egyptian Men Like Fat Women

CAIRO Egyptian men, it seems, like their women buxom and downright fat. While the trend in the west these days is the thin look, the Egyptians prefer their ladies to be well rounded and somewhat substantial. The fat look, however, seems to be getting out of hand with the introduction of new foodstuffs to put on--yes, put on--weight, including an incredible item called fattening jam.

The Egyptian Gazette, a Cairo English-language newspaper which often takes up social issues, carried an editorial on the matter headed: "Fattening Them Up."

The editorial writer of the Gazette is obviously out of step with other Egyptian men, because he finds the idea of fattening women up clearly unpleasant.

He wrote: "The appearance of fattening jams on the market, backed by a widespread advertising campaign exhorting women to transform themselves into buxom fleshy creatures is a somewhat surprising and alarming trend."

The Gazette writer said the fatty trend was even more surprising because many Egyptian women have been Europeanizing their wardrobes with patterns straight out of imported fashion magazines which push the long, sleek look rather than the short and round.

"Bearing in mind that breast enlargement techniques in Europe are still not

very successful, it is doubtful whether these jams will do more than produce obese women with the extra lumps, in all probability, in the wrong place," the editorial said.

"The very idea of fattening women up for men is, to say the least, revolting and one which would have the members of militant women's liberation movements sharpening their spears."

The writer said he hoped the Egyptian ministry of health will examine the fattening jams closely.

But he added that it was really up to the public at large to discourage what he called "this most unwholesome trend."

The trouble is that many of the poorer peasant women in Egypt equate fatness with health.

If you are fat, you are healthy, and if you lose weight, you are losing your health. This is the way many villagers think and fattening jam will no doubt do a roaring trade with less-educated women.

And there is little doubt that men prefer their women on the cuddly side.

Om Kalthoum, Egypt's most famous woman singer, is substantially built, as are most of the other women actresses and singers.

COUNTY AGENT'S NOTES

Hogs Bringing Good Prices

By Bill McCutchen
Milam County
Extension Agent

After a long dry spell there is money in hogs again. Top hogs are bringing 29 to 30 cents.

I don't expect everyone to jump into the hog business again however, as they did about three years ago under similar circumstances. The hog business was looking good then and a lot of people decided to get onto the

bandwagon and succeeded in riding swine prices to the bottom. Quite a few people were burned where it hurts, in the pocket book.

From all indications, people are going to think twice this time before they leap.

MULBERRY TREES

Homeowners continue to be concerned over their mulberry yard trees. The leaves turn yellow prematurely and finally drop from the plant. This condition is caused by a fungal leaf spot which often attacks mulberry trees in the fall of the year.

This fungus disease can be controlled by spraying with Maneb. Two applications at weekly intervals are needed to check the disease.

If the disease is not controlled it is not expected to kill the tree, however, premature defoliation could reduce the thriftiness early next spring.

WINTER PASTURES

Dry weather has been very helpful in getting cotton harvested but winter pasture prospects are getting dimmer with each passing day. We would like to see small grains up and making the most of mild temperatures in September and October.

A few fields of small grain are up, some have been dry planted, and a lot more won't be planted until we receive a rain.

Rusty Harris, Rockdale Farm and Ranch, says that most farmers in that area are waiting for a rain before planting.

Beef Cows On Increase

Beef cow numbers have increased substantially in Texas since the first of the year, according to figures compiled by the Texas Crop and Livestock Reporting Service.

Dr. Ed Uvacek, livestock marketing specialist with the Texas Agricultural Extension Service, points out that the biggest increase in cow herds has occurred in South Texas and in parts of East Texas and along the Red River.

The Texas A&M University specialist lists improved range conditions and favorable cattle prices as the main reasons for the expansion. Grazing conditions have been average to above average in many areas of the state although parts of Northeast Texas are still suffering from lack of moisture.

Uvacek notes that the situation is in contrast to last year when cow numbers in Texas moved down six percent. The drought of last year took its toll and breeding herds were thinned to avoid overstocking of ranges.

October is fair month across the Lone Star State. The Heart O' Texas Fair & Rodeo, Waco, Oct. 3-8; State Fair of Texas, Dallas, Oct. 7-22;

Fall Garden Can Supply Vegetables Til Midwinter

COLLEGE STATION

Are you in a summer slump, weary from the "dog days" of late July and August?

Then treat yourself to a fall garden that you can enjoy from the first blossoms of early fall to the last bite of delicious vegetables in midwinter, suggests Dr. John Larsen, horticulturist for the Texas Agricultural Extension Service.

"Fall is a good time for growing vegetables since many of them relish cooler temperatures," notes the Texas A&M University specialist. "These include cucumbers, squash, tomatoes, cabbage, broccoli, carrots, cauliflower, turnips, mustard and spinach."

Vegetables such as tomatoes and peppers should be started from transplants in mid-summer since they must mature before frost. Broccoli, cauliflower and cabbage should be started from transplants in late summer so that they will mature during cool weather in late fall and winter. Frosts and light freezes generally do little damage to these crops. In southern counties

transplants can be started later since frosts rarely occur until late in the year.

"Onions may be seeded from early September to late October and thinned for use in the green stage," points out Larsen. "Plants left over can be carried through the winter for production of mature bulbs. However, if the plants grow more than one-fourth inch in size before freezing weather, a high percentage of seed stems may develop in the spring. Some gardeners may prefer to buy southern-grown transplants and set these out from late December to February for bulbs."

According to the horticulturist, a thriving fall garden requires a lot of care and effort. To avoid disease, nematode and weed problems, consider soil fumigation. Several products are available at garden supply centers. Follow the manufacturer's recommendations carefully, giving special attention to the time interval between application and planting.

"Watering is critical for fall vegetables, especially in the early going when temperatures are still high," notes the horticulturist. "A good soaking at planting should be followed with light-

er waterings until seedlings emerge. Regular waterings are needed to keep soil moist."

Larsen recommends a mulch of decomposed organic matter, grass clippings, sawdust or other material to help conserve moisture, keep down weeds and reduce cultivation.

As far as fertilizer is concerned, the horticulturist suggests a 5 - 20 - 10 mixture on silt loams and clay soils and a 5 - 20 - 20 combination on sandy soils. Broadcast 15 to 20 pounds to each 1,000 square feet before tilling the soil.

After planting, apply an additional 10 pounds per 1,000 square feet in bands two inches to either side of the seed row and two inches deep, using care so the fertilizer does not contact the seed.

After a heavy rain, sandy soils may need an additional sidedressing of nitrogen. Ammonium nitrate should be used since nitrate nitrogen is more readily available to plants in cool weather.

"With the proper care and attention, your fall garden should flourish. At the same time, you can be outdoors to welcome and enjoy the fall season," notes Larsen.

4-H Activities

By Rodney B. Kruse
Asst. Co. Extension Agent

What 4-H club will win the Mr. and Miss contest this year? This question will be answered by the club that raises the most money for their club nominees. 4-H Clubs are sponsoring bake sales, candy sales, rummage sales and other money raising events.

The Gause 4-H Club Mr. and Miss nominees are Andre Malone and Phyllis Green. Andre is an active member in his choral club and plays the piano and is interested in swine. Phyllis is interested in home improvement and clothing and has participated in the County Dress Revue.

Branchville 4-H club Mr. and Miss nominees are Melvin Wells and Marilyn Gooden. Melvin has had swine as a project, is interested in poultry and is an active 4-H member. Marilyn has been

in 4-H for several years and has participated in the Co. Food Show. These two clubs in Milam County will begin to raise money for their candidates.

Cameron, Davilla, Thordale, Gause Two-Mile, Minerva, Maysfield and Rockdale 4-H Clubs have already began the fund raising. Support these 4-H clubs in the county -- make an investment in the future.

Animals are being prepared for the Heart O' Texas Fair in Waco October 3-7. Club members in Cameron and Thordale will enter into this fair their dairy and beef animals projects. Report of the results will be coming in the future.

On Monday, October 2 all 4-H members, adults and especially club officers are reminded of a meeting. A State 4-H Specialist will hold a meeting at the Community Center in Cameron at 7:30 p.m. The subject of the meeting will be how to conduct and organize an effective club meeting.

John C. White, Commissioner

Cotton Production Increases Again... Cattle on Feed Declines Slightly... Pecan Production Expected to Set Record... Crop Prospects Good...

Texas cotton production for this season is estimated to be more than one million bales above 1971. The Texas Crop and Livestock Reporting Service estimates Texas' production this year now at 3,800,000 bales. This would be an increase of 1,221,000 bales over 1971 production.

Yield, based on September 1 conditions, is expected to average 356 pounds per acre. Only 263 pounds per acre were produced in 1971.

Harvest is virtually complete in the Lower Rio Grande Valley. Harvest in south Central is now reaching full momentum with a good to excellent yield reported.

Cotton on the High and Low plains is making good to excellent progress.

A ONE percent decline in the number of cattle on feed compared to a month ago is reported for Texas. The state continues to be the number one cattle feeding state in the nation.

As of September 1, there were 2,095,000 head of cattle and calves on feed for slaughter in Texas. Compared to a year ago, this is 32 percent higher.

Placements into Texas feedlots during August totaled 381,000 head; this is 28 percent above a year ago. Marketings of fat cattle during August totaled 406,000 head. This is 16 percent above last year.

In the major six-state cattle feeding report, which includes Texas, Arizona, California, Iowa, Nebraska, and Kansas, number of cattle on feed totaled 7,551,000 head.

This is a three percent decrease from a month ago, but 17 percent more than for the same time in 1971. Iowa is the second ranking cattle feeding state with a total of 1,476,000 head as of September 1 on feed.

A RECORD pecan crop is in prospect for Texas. The Texas Crop and Livestock Reporting Service estimates a crop of 70,000,000 pounds, the highest ever. This is almost three times more than last year's crop of only 24,000,000 pounds. The Texas crop will account for 35 percent of the total estimated U.S. production this year.

Harvest in most areas is expected to be two to three weeks earlier; the first pecans of this season were harvested in late August in San Saba County. The 1972 crop estimate is one million pounds above the previous record crop of 69,000,000 pounds in 1968.

CROP prospects continue at a high level over most of the state. Grain sorghum production is expected to top off at 60 bushels per acre, a record high yield. Harvest throughout the state is more than half complete.

Corn production is now estimated at 35,000,000 bushels. Per acre yield is expected to be 70 bushels, which is eight bushels lower than 1971.

Peanut yields this year are expected to be higher than in 1971. A yield of 1,430 pounds per acre is anticipated; this compared with 1,235 pounds per acre in 1971.

Soybean production is now estimated at 5,670,000 bushels compared with 2,781,000 in 1971.

Wheat seeding is active from the Edwards Plateau to the northern High Plains. Seeding for the state is about 20 percent complete.

State Hay Show Set

A lot of hay has been made over the state this year but how does it measure up in quality and feeding value?

To find out, producers are encouraged to enter hay samples in the 1972 State Hay Show which will be held October 25-26 at the Nine Bar Ranch near Cypress in Harris County. The ranch is on U.S. Highway 290 three miles northwest of Cypress.

Registration will begin at 9 a.m. on October 25 and judging will get under way at 10 a.m.

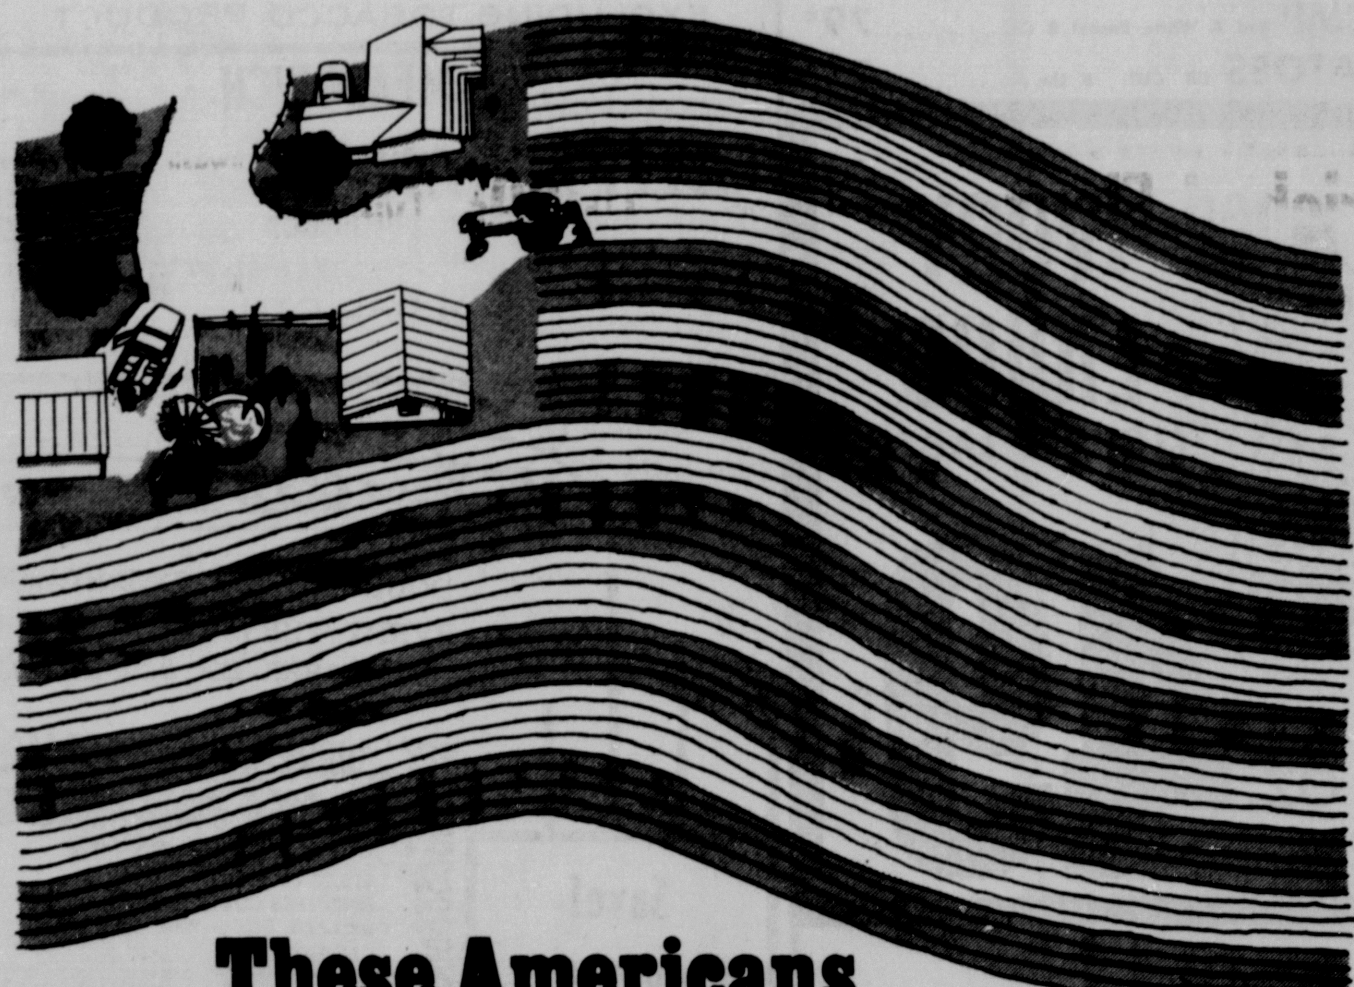

Hay entries may be made in one of 28 different classes, according to Harris County Extension Agents Rayford Kay and Don Portie. Samples should be sent to the County Extension Office, 406 Caroline, Room 203, Houston Texas 77002. Deadline for entries is October 2 except for those

that already have a complete chemical analysis. Such entries accompanied with the analysis may be submitted through October 9.

If hay samples have not been analyzed, a \$7 fee should be included. Checks are payable to the Agriculture Committee of the Houston Chamber of Commerce which is sponsoring the show in conjunction with the Texas Agricultural Extension Service, Soil Conservation Service, Texas Education Agency and Texas Plant Food Institute.

A hay sample should be four or more inches thick, tied with baling twine wrapped in heavy paper or newspaper to reduce damage during shipment, suggest the county agents. The owner should identify the sample as to name, address and type of hay.

These Americans have held the line on prices.

There's a lot of talk about prices these days. And how to beat inflation. Unfortunately, there aren't any easy answers. But there are some effective inflation-fighters in this country. They haven't had a major price increase in the goods they sell for a generation. Who? The sometimes forgotten farmers in America.

Check the facts.

	1951	1971
Cotton (100 lbs.)	\$37.88	\$28.46
Grain Sorghum (100 lbs.)	\$23.86	\$1.84
Cattle (100 lbs.)	\$35.72	\$33.12
Corn (bushel)	\$1.66	\$1.08
Wheat (bushel)	\$2.11	\$1.31

Average yearly prices received by farmers
(U.S. Department of Agriculture figures)

Take a look at the prices farmers received for a bushel of corn or wheat in 1951. Twenty years later, in 1971, prices were substantially lower. In 1951, farmers sold beef cattle for \$35.72 per hundredweight. Twenty years later, the price had dropped more than 7%. Prices received for hogs decreased. Maybe you'll agree the best inflation fighters in the country manage America's farms.

Cheaper than dirt.

Here's a real eye-opener. Next time you're at the supermarket, price a 5-pound bag of flour, a 5-pound bag of corn meal and a 5-pound bag of potting soil. You'll find it's no exaggeration to say our farmers sell their products cheaper than dirt.

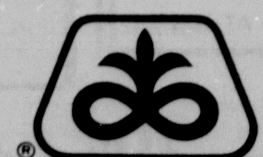

The high cost of winning.

All the while our farmers have been doing business at prices substantially out of the 1950's, the cost of the goods and services they buy are straight out of the 1970's. How can they survive buying high and selling low? The sad fact is many don't. In the last two decades, nearly half our farmers have left the land for already crowded cities because ends couldn't be met.

Now you know.

Statistics say the American farmer is the most efficient worker in the world. Each farmer provides food for fifty-one people. Compared to 20 in 1950. He is one of the very few of us who literally makes something where nothing was before. That could be why, in spite of the built-in risk of trying to beat Mother Nature year in and year out, you'll hear them all say, "I'm proud to be an American farmer."

Now, you may ask why the folks at Pioneer are telling you all this. Over the years, we've gotten to know a whole lot of farmers... so we decided we ought to speak up with the facts. Our friends on farms all over the country deserve it.

NOTE

The success of the American farmer is basic to our country's economy. Yet he is besieged on every side... occasionally even characterized as some kind of profiteering villain. It is obvious that he needs help in telling it like it is. Pioneer Hi-Bred International is placing ads similar to this one in consumer publications. Pioneer's Southwestern subsidiary, Pioneer Hi-Bred Company of Plainview, Texas, hopes others in the business community will do what they can to help the American farmer get the credit due him.

Art, Craft Trail Dates Set In Nov.

The 1972 Highland Lakes Arts & Crafts Trail will be held a month later than in the past and will feature a split trail instead of all fairs simultaneously.

On November 4-5, fairs will be held in Marble Falls, Burnet, Bertram, Lampasas, Buchanan Dam, Kingsland, Llano, and Mason. On November 11-12, fairs will be held in Austin, Buchanan Dam, and Mason.

Sponsored by each local chamber of commerce, all items for sale will come from local artists and craftsmen. Additional information is available by writing for a free brochure and map of the Trail, P. O. Box 1967, Austin, Texas 78767.

Church To Observe Anniversary

Plans are being formulated for the celebration of the 103rd anniversary of the First Baptist Church of Calvert on October 15.

A historical marker will be unveiled in the afternoon and a new church sign will be dedicated. A history of the church is being printed in book form and will be available at the dedication.

Longtime members of the church will be honored during the morning worship service.

BU Theater Opens Play 'Diary'

Baylor University Theater will present its second production of the 1972-73 season, "The Diary of a Scoundrel," beginning Oct. 12.

Other performances of the Alexander Ostrovsky play will be Oct. 13, 14 and 16 through 21. All performances will be at 8 p.m. in Baylor Theater on the Waco campus.

Tickets will go on sale Oct. 9 and may be obtained by writing Baylor Theater, Baylor University, Waco, Texas 76703 or by calling the theater at (817) 755-1861. Tickets are \$2 each.

Ostrovsky, one of the most prolific of Russian playwrights, wrote more than 80 plays in his lifetime. Among his best-known are "The Storm," "Poverty is no Crime" and "Don't Ride a Sleigh that Isn't Yours."

WASTE

Did you know the average American throws away five to seven pounds of solid waste each day? That's over a ton a year, and the amount is increasing, report Extension home economics specialists.

ENGAGED - Mr. and Mrs. Jack Melton of Oglesby announce the engagement and approaching marriage of their daughter, Patricia Ann Carlile to James Henry Carter, son of Mr. and Mrs. Bert Carter of Rhame, Texas. The bride to be is a 1970 graduate of Milano High school and a 1972 graduate of CLA School of the Veterans Administration Center of Temple. She is presently employed at the St. Edward Hospital-Rischar Memorial in Cameron. The prospective groom is a 1972 graduate of Texas A&M where he received his degree in Agriculture. He is presently employed in Tulia, Texas. A September 30 wedding is planned at the Milano Methodist Church at 7:30 p.m.

Fashions, Food Ideas Aplenty At State Fair

AUSTIN If you're going to attend the State Fair of Texas this year (and who isn't?) be sure to visit the food and fiber pavilion. You'll see style shows, learn new ways to prepare bountiful Texas food, and be entertained.

It's all a part of the Texas Department of Agriculture's program to acquaint all Texans with the quality and quantity of food produced here in Texas.

Texas Agriculture Commissioner John C. White said the food and fiber pavilion offers to Texas agriculture industry "an excellent show-

case in which to point up the wide range of agricultural products produced in Texas."

The story of agriculture's contribution to the economy will be shown in a series of style shows, cooking demonstrations and other special features. Each day a specific Texas agriculture product will be spotlighted. The natural fibers -- wool, cotton and mohair -- will be highlighted through a number of style shows using college student as models.

About 1.5 million Texans are expected to visit the pavilion this year. "We will be looking for you. In addition to the shows, we will have also available a number of recipes you can use featuring Texas food products," White said.

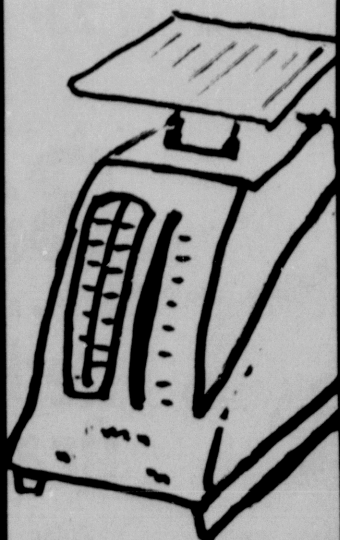

Organizations which will have exhibits include Texas Department of Agriculture's Consumer Services, Texas Farm Bureau, Texas Young Farmers Association, Associated Milk Producers, Inc., Texas Peanut Producers Board, Texas Pork Producers Association, Texas Poultry Federation, Texas Sweet, Inc., Texas Beekeepers Association, Natural Fiber Industry, Texas Beef Industry, Texas Forestry Association, Texas Association of Nurserymen.

Nuptial Mass Unites Couple

Miss Jane Zolt, daughter of Mr. and Mrs. Oscar Zolt of Cameron, and Kenneth Harrell, son of Mrs. Katie Harrell of Lott, were married Saturday, Sept. 16 at St. Monica's Catholic Church.

Rev. William Benish officiated at the ceremony. Wedding music was presented by Mrs. Frances Zolt, grandmother of the bride.

Given in marriage by her father, the bride wore a formal gown of white silk organza over taffeta. The bodice, an empire style, was fashioned with a high neckline of Venice lace. The Gibson sleeves ended in wide cuffs with double rows of lace. A semi-a-line skirt was complemented with a matching mantilla headpiece of layers of illusion. It fell to chapel length. She carried a bouquet of white and yellow roses.

Mrs. Joe Mayer of Temple was matron of honor. Bridesmaids were Mrs. Ruben Harrell of Rosebud, Mrs. Charles Kirk of Cameron and Paula Zolt of Dallas, sister of the bride.

Flower girls were Jo Ann Oliver of Waco and Elizabeth Zolt of Cameron, both cousins of the bride.

Ruben Harrell of Rosebud, was his brother's best man. Groomsmen were Charles and Steve Warschak of Burlington and Larry Koslosky of Rosebud.

Ushers were Joe Mayer of Temple and Alan Pelzel of Burlington.

Ring-bearer was James Mondrik of Cameron.

A reception honored the couple at Simon - George Hall. Mrs. Louise Elley of Cameron, sister of the

groom, registered guests. Others in the house party were, Mrs. Sam Oliver and Mary Louise Oliver both of Waco, Mrs. Billy Hawks of Baytown, and Mrs. Robert Kopriva of Temple.

Rehearsal dinner was given at the home of Mr. and

Mrs. Louis Elley were the couple exchanged gifts with their attendants.

The couple spent a week in Denver, Colorado with her sister and family, Mr. and Mrs. Michael Allen. They will make their home in New Orleans, Louisiana.

MR. AND MRS. KENNETH HARRELL

Comments from Chris

Breads Play Roll In History

By Christine Laws Co. Extension Agent

For thousands of years the baking industry has been linked with religion, customs, superstition and governments.

In the Middle Ages, Henry VII of England beheaded any baker whose bread did not conform to the fixed weights for bread loaves. Bakers, to avoid this hazard, added an extra loaf to deliveries of 12, making the number 13 - the well-known "baker's dozen."

In Sweden, the bride and groom eat a whole wedding bread to symbolize a faithful and happy marriage. So you see -- long before Madison Avenue advertising -- despondent Swedish housewives were saying, "I can't believe I ate the whole thing."

The U.S. Department of Agriculture's Agricultural Marketing Service reports this year's wheat crop is one of the largest ever recorded and will help provide ample quantities of grain for bread, spaghetti, noodles and other wheat products consumed by the American public. Wheat products are included on Plentiful Foods List for October.

Here are some delicious recipes featuring wheat products to entice your family into eating the "whole thing" without any coaxing:

POUND CAKE

1 1/4 cups butter
1/2 tsp mace
Grated rind of 1/2 lemon
1 1/2 cups sugar
6 eggs, separated
3 cups flour
1/4 to 1/2 tsp salt

Cream the butter until soft, add the mace and lemon rind, and then the sugar gradually stirring until the mixture is light and fluffy. Continue creaming and add slowly the well-beaten egg yolks. Fold in the stiffly beaten egg whites, then add the flour and salt and beat until the batter is smooth. Put the batter in a tube pan which has been lined

with wax paper. Bake in a slow oven (300-325 degrees) for 1 to 1 1/4 hours.

Soon nuts and "football nuts" will be in season, so here's a perfect snack:

PECAN BUBBLE BREAD

6 tbsps. milk
2 tbsps. sugar
1 tsp. salt
2 tbsps. shortening
1 package of cake yeast
1/3 cup very warm water
2 1/4 cups sifted flour (about 1/3 cup melted butter or margarine
2/3 cup sugar
1 tsp. cinnamon
1/4 cup chopped pecans or walnuts
Scald Milk; stir in 2 tablespoons sugar, salt, shortening; cool to lukewarm. Sprinkle or crumble yeast into water (very warm water for active dry yeast; lukewarm for compressed.) Stir until dissolved. Stir in lukewarm milk mixture and half of the flour; beat until smooth. Stir in remaining flour.

Turn out on lightly floured board. Knead until smooth and elastic, and 10 minutes. Place in greased bowl; brush with shortening. Cover. Let rise in warm place, free from draft, until doubled in bulk; about 1 hour. Punch down and turn out on lightly floured board. Form into a roll about 12 inches long; cut roll into 24 equal pieces and form into balls. Roll balls in melted butter, then in mixture of 2/3 cup sugar, cinnamon and chopped nuts.

Place a layer of balls in greased 9 x 5 x 3 inch bread pan; arrange second layer of balls on top; sprinkle with any remaining sugar mixture. Cover. Let rise in warm place, free from draft, until top of loaf is slightly higher than edge of pan, about 45 minutes.

Bake at 375 degrees F. about 30 minutes, or until done. Let cool in pan 10 minutes. To serve, separate segments with two forks. Makes 1 loaf.

Murray-go-Round

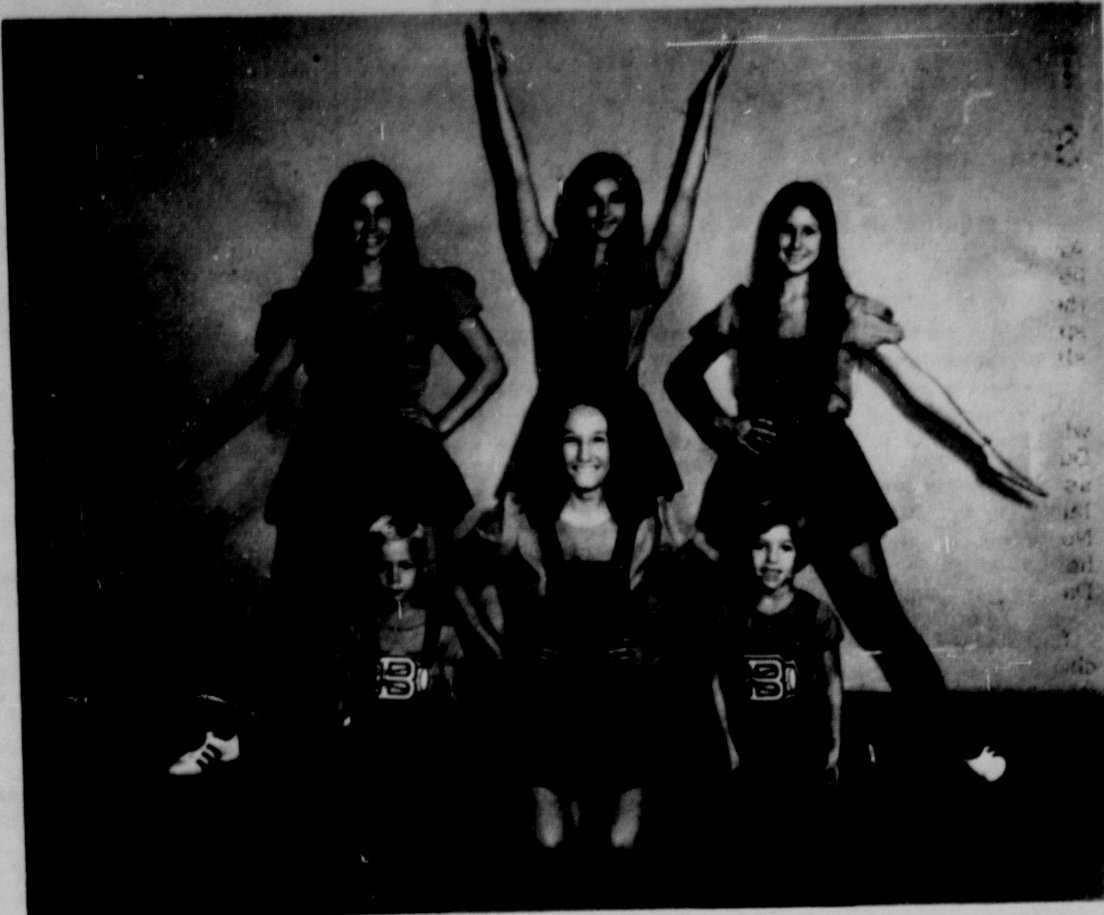

OUCH! NOT AGAIN?

Talk about being in the wrong place at the wrong time! In 1968, Texas was a leading SWC favorite. When the Gilbert - Worster - Koy Crowd tied Houston, 20-20, and was shocked, 31-22, by 21 - point underdog Texas Tech, the smarts hooted, pointed fingers and guffawed. Poor old Oklahoma State showed up the next week at Memorial Stadium and was slaughtered, 31-3, as the Burnt Orange began that famous 30 - game winning streak. Well, never has a SWC team been a bigger Pre - season favorite than Frank Broyles' current Star-studded Arkansas Razorbacks. Then, enter USC and that shocking 31-10 Hog defeat at Little Rock. Broyles has had two weeks to re-tool, to re-inspire this Magnificent Machine. And, guess who comes to dinner Satur-

day night at Little Rock? Oklahoma State. Who else?

QUICKIES:

Broyles told his Television audience, "We have never before played a team as good as USC. And, we won't be meeting another one that good, either." . . . When George Kirk, Grant Teaff's Baylor assistant, was head coach at Cameron his two stars were Quarterback Mack McKinney and Full-back Mike Perrin. Both became outstanding UT defensive ends. . . . Whatever happened to Paul Richards? . . . Blackie Sherrod: "Remember when Tennis Players made no more money than shot putters?" . . . Don't give up Kids! Did you know that Nebraska's All - America Jerry Tagge, a three-year starter who led his team to one and one-half National Championships was only a third-string quarterback as a Cornhusker freshman? Or, that Eddie Phillips, who quarterbacked Texas to the 1970 National Co-championship (with Nebraska) was a Frosh second-stringer? And, that Donnie Wigginton, who booted UT to the '71 SWC title, was only a fourth-string Frosh Quarterback?

CHEERS FOR THE BUCKHOLTS Badgers are led this year by this bevy of beauties. From left, Mascot Todd Braun; Debbie Mc-Neill Jr., Mascot Cynthia Rachui, Standing Jo Beckhusen Sr., Head cheerleader; Janisue Zajicek Sr., Linda Marek Sr.

YOUR SERVICEMAN

MARION WHITE

Sgt. Marion A. White, son of Mr. and Mrs. O. L. White of Cameron, is accepting his second discharge ending the 29th of September.

As a volunteer he has served on overseas duty twice, at Alaska and Thailand.

The sergeant is a graduate of Yoe High School and enlisted in the air force soon after graduation. He served in the air force as a cook the first term then was transferred to the administration section.

JOHN KRISTOF

NEWPORT, R. I.
Navy Commander John J. Kristof, son of Mr. and Mrs. John L. Kristof of Route 1, Caldwell, is one of 186 senior military officers and civilian executives of the Federal Government enrolled in a 10-month graduate-level course in naval warfare and related subjects at the Naval War College, Newport, R.I.

The resident course is designed to enhance the preparation of selected military officers and civilian executives for positions of high responsibility.

Obituaries

Luetge

Henry Luetge, 86, of Rockdale died Thursday in a Rockdale hospital after a long illness.

Funeral was at 10 a.m. Saturday at Phillips and Luckey Funeral Home, the Rev. Gary Mayer officiating. Burial was in the IOOF Cemetery.

Mr. Luetge lived near Rockdale all his life.

Surviving are two sons, Louie Luetge and Perry Luetge, both of Rockdale; a daughter, Mrs. Lester Wadlington of Rockdale; a brother, Otto Luetge of Rockdale; a sister, Mrs. Lizzie Drummons of Rockdale; nine grandchildren and six great grandchildren.

Pallbearers were Louie Luetge Jr., Clyde Luetge, Gary Wadlington, Charles Wadlington, Earl Schneebell and Dick Drummonds.

Innmon

Cap H. Innmon, 55, of Rogers died Thursday evening in a Temple hospital after a long illness.

Funeral was held at 11:30 a.m. Saturday at Gommert Funeral Home at Rogers, the Rev. Shelby Jones officiating. Burial was in Liberty Hill Cemetery.

Surviving are his wife, Mrs. Odell Innmon, a son, Larry H. Innmon of Austin; three daughters, Mrs. Diane Franklin of Bergstrom, Mrs. Shelia Luetkenhoelter of Austin and Miss Melissa Innmon of Cedar Park; two stepsons, Billy Ray Hicks of Waxahachie and Jimmy Hicks of Dallas; a stepdaughter, Mrs. Linda Allen of Kentucky; two brothers, Anthony Innmon of Liberty Hill and Leroy Hicks of Brownsville; three sisters, Mrs. Della Belk of Gatesville, Mrs. Lemma Stator of Austin and Mrs. Earline Seay of Arkansas; and four grandchildren.

VAN EANES

Billy Van Eanes, son of Mr. and Mrs. Van Eanes of Cameron, has enlisted in the United States Navy. Eanes is a 1971 graduate of Yoe High School.

After swearing in ceremony in Dallas, Eanes departed for seven weeks recruit training at San Diego, Calif.

Upon completion of recruit training and two weeks recruit leave Eanes will report to the Naval Air Auxiliary Training Center, Memphis, Tenn. for the further training in the specialty of his choosing, the aviation maintenance and handling school.

School guarantees are a part of the new Navy programs available to qualified personnel entering the Navy.

BRUCE ROYAL

NORFOLK, Va.
U. S. Air Force Major Bruce R. Royal, son of Mr. and Mrs. Bruce R. Royal of Rosebud, is attending the Armed Forces Staff College at Norfolk, Va.

The five-month Department of Defense school is operated under the direct supervision of the Joint Chiefs of Staff and prepares students for positions in joint and combined commands that involve more than one country or military service.

The major was commissioned in 1961 through the aviation cadet program and has served 12 months combat duty in Vietnam.

He attended Rosebud High School, Temple Junior College and received his bachelor's degree in management in 1965 at the University of Nebraska at Omaha.

JEFFREY MANNERS

SAN ANTONIO
Airman Jeffrey C. Manners, son of Mr. and Mrs. Elmo Manners of Cameron, has been assigned to Sheppard AFB, Tex., after completing Air Force basic training.

During his six weeks at the Air Training Command's Lackland AFB, Tex., he studied the Air Force mission, organization and customs and received special instruction in human relations.

The airman has been assigned to the Technical Training Center at Sheppard for specialized training in the communications field.

He will begin that training this month as the Air Force is celebrating its 25th anniversary.

Airman Manners is a 1972 graduate of C. H. Yoe High School.

RONALD HOLAMON

USS STRONG
Navy Petty Officer Third Class Ronald J. Holamon, son of Mr. and Mrs. Hollis J. Holamon Rockdale, has returned to Charleston, S. C., from the Mediterranean aboard the destroyer USS Strong.

During the cruise he visited Barcelona and Rota in Spain; Naples, Italy; Bermuda and the Azores.

Kubiak Asks Repeal Of Road Rules

Rep. Dan Kubiak says he has called and wired Gov. Preston Smith and again requested him to let the Legislature repeal the controversial rules of the road legislation affecting the lights and brakes on farm and cotton trailers.

"This has been a real problem during the past few weeks because of some officers not cooperating," Kubiak said, "but for the most part we have been able to help the farmers."

He said that if farmers have problems because of not having lights or brakes on farm or cotton trailers during daylight hours, they should contact him either in Rockdale at 512-446-2839 or in Austin at 512-475-3563.

Kubiak said he hoped the Governor will open the call at the special session for repeal of the rules.

Mrs. Hazel Fontaine, Mrs. Carlton Crook and Mrs. Bill Thweatt visited Mrs. Edd Yager Wednesday afternoon and all enjoyed playing 42.

The Adolph Stoenbers of Rosebud visited Mr. and Mrs. Walter Senkel Sunday.

Mr. and Mrs. Art Poch and son of New Braunfels, Mr. and Mrs. Thomas Hickman and Mr. and Mrs. Sonny Townsend of Waco visited Mrs. Willie Phipps Sunday.

Grant Approved For Police Training

Governor Preston Smith today approved a \$27,143 grant to continue peace officer training for the area served by Central Texas Council of Governments, Belton.

The money will come from the Criminal Justice Council, which oversees statewide law enforcement planning and administers funds from the Department of Justice for crime control projects in Texas.

Both basic and advanced law enforcement courses and seminars are conducted by Central Texas College. In addition, a part-time law enforcement coordinator works with the college in developing training programs and techniques.

COUNTY NEWS

San Gabriel News

Mr. and Mrs. Richard Heine spent Friday night and Saturday in Austin visiting her sister and husband, Mr. and Mrs. Arthur Wutrich.

Mr. and Mrs. Rockney Terry of Austin were Sunday guests of his parents, Mr. and Mrs. James Terry.

Gause News

By Mrs. Wanda Lee

Mr. and Mrs. Walter Burney of San Diego, Texas spent last weekend with Mrs. J. M. Burney and other relatives.

Sunday visitors with Mr. and Mrs. Wayne Lee, Craig, Kelly, Lance and Kristi were the Wayne Albrights of Hearne, Mrs. Roy Gene Miller and Regina of Milano, Jimmy Cass, Dwayne, Lisa and Carmen of Lexington and Koye and Ray Cass. Mrs. Koye Cass visited after she got in from work.

Mrs. Velma Orfela of Hearne visited relatives Sunday.

Sammy Harris of Houston visited last weekend with his mother, Mrs. Lillie Harris.

Mrs. J. A. Young is home after spending several days in the Rockdale hospital.

Will Faulkner is now residing at the Waggon Wheel

Lodge in Hearne.

Mr. and Mrs. J. W. Bland of Humble visited last Saturday with Mr. and Mrs. George Bland.

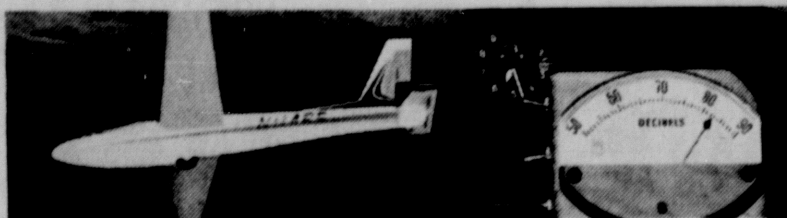

There will be a bridal shower for Mrs. Terry Hill, the former Marsha Albright, Tuesday night October 3 at 7:30 p.m. at the Gause Baptist Church annex. Hostesses will be Mrs. Mildred Ely, Mrs. Wanda Coats and Mrs. Mayme Ditto and Mrs. Wanda Lee.

Sandra Slay of Dallas spent the weekend here with her parents and sister, Mr. and Mrs. Raymond Slay and Cheryl.

Mr. and Mrs. Tee Joe Marks and Traci of Houston spent the weekend here with Mr. and Mrs. Henry Simmons.

Mrs. Edna Matejowsky and Mrs. Fannie Holdiness of Rockdale visited Saturday with Mr. and Mrs. Wayne Lee, Craig, Kelly, Lance and Kristi.

THE '73 FORDS ARE HERE.

The airborne glider. 82 decibels at 60 mph.

The '73 Ford LTD. 65 decibels at 60 mph.

Quiet is the sound of a well-made car.

THE QUIET 1973 FORD LTD BROUHAM
(shown with optional Deluxe Bumper Group, Convenience Group, deluxe wheel covers, front cornering lamps and whitewall tires).

At 60 mph a '73 Ford LTD rode quieter than an airborne glider.

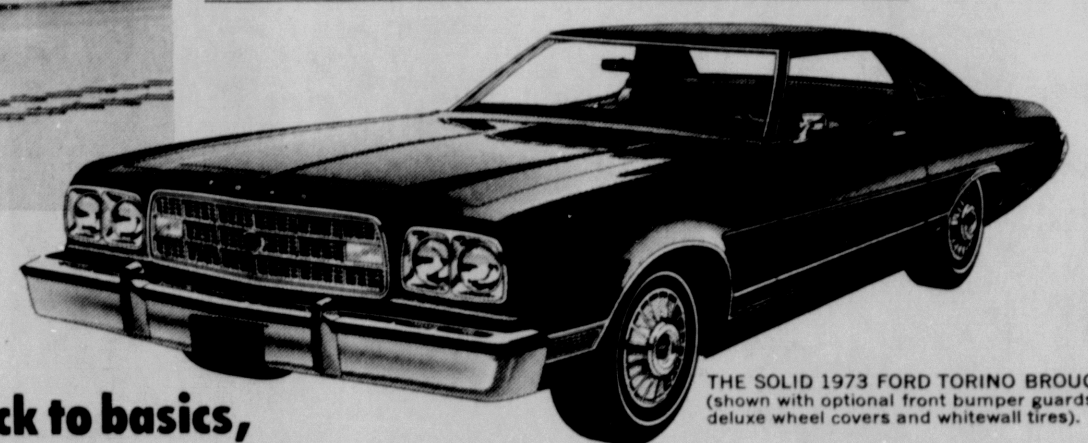

On July 27, 1972, General Radio Co. tested a '73 LTD against an airborne glider. Both at 60 mph and with identical sound level meters. The result: the Ford was quieter. But the new LTD is more than just quiet. It is well made from its power front disc brakes, power steering and automatic transmission, standard equipment, to its luxurious, comfortable, roomy interior. There are 16 new Ford models to choose from and each will convince you that quiet is the sound of a well-made car.

High wire artist Bill Couch balancing on a '73 Torino riding over a road of 2x4's.

A '73 Torino rode so smooth, a high wire artist kept balance on a road of 2x4's.

Chances are you won't try to balance yourself on top of your new Torino. But, when you're riding inside, you'll still appreciate Torino's refined suspension—because it helps to cushion bumps, absorb road vibrations and reduce body sway. You feel solidly in control while you ride in comfort and luxury. The solid mid-size Torino. Smooth riding, strong and quiet.

THE SOLID 1973 FORD TORINO BROUHAM
(shown with optional front bumper guards, deluxe wheel covers and whitewall tires).

'73 Pinto: When you get back to basics, you get back to Ford.

Ford, the company that built the first basic, solid, reliable car seventy years ago—has built today's basic, solid reliable car: Pinto. It's become America's top selling economy car for more reasons than economy. Here are some of those reasons: A 1600 cc. engine developed and perfected in over 10 years of actual driving. Rack-and-pinion steering. Solid welded body, electrocoated to fight corrosion. 4-speed transmission—lubed for life. Everything we've learned in seventy years of car making—all the basics—we build into every Pinto Wagon, Runabout and Sedan. When you get back to basics, you get back to Pinto.

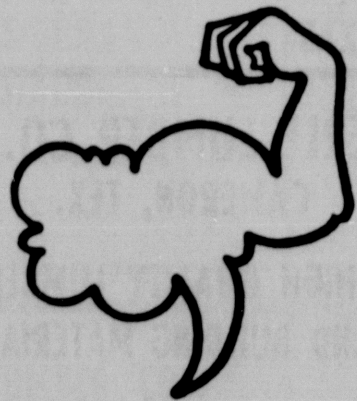

THE 1973 PINTO WAGON
(shown with Squire Option, luggage rack, Deluxe Bumper Group and whitewall tires).

A 1973 Pinto on the Michigan Testing Facility. The cables connecting the Pinto to the Van enable us to monitor Pinto's performance.

Dream Power.

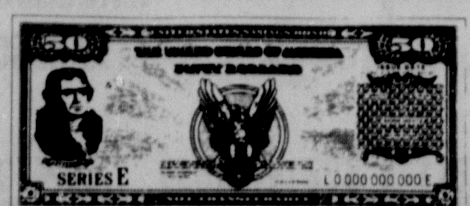

Every person that lives has some kind of dream. The day he doesn't, he's dead. The ability to imagine is one of the most precious powers we have.

Dreams change things. Some dreams may change your world. And some dreams may call for money.

U.S. Savings Bonds are the safe way to make sure some of your dreams come true. And, they're easy to buy. Your bank sells 'em. Or, you can probably buy them through the Payroll Savings Plan where you work. Bonds build you a

sizeable nest egg. While you build a dream. Bond power. That's real dream power.

Now E Bonds pay 5 1/2% interest when held to maturity of 5 years, 10 months - 4's the first year. Bonds are replaced if lost, stolen, or destroyed. When needed they can be cashed at your bank. Interest is not subject to state or local income taxes, and federal tax may be deferred until redemption.

Take stock in America.

Now Bonds mature in less than six years.

There are 39 new models to choose from.

And every 1973 Ford, Thunderbird, Torino, Mustang, Maverick and Pinto—comes equipped with new energy-absorbing bumpers and steel guard rails in all side doors. Steel-belted radial ply tires and AM/FM stereo radios are options on all models. Test-drive these new Fords at your Ford Dealer's now.

All 1973 cars must meet Federal Emissions Standards before sale. See your Ford Dealer for details.

Milepost Markers To Aid Texas Highway Travelers

AUSTIN

Have you ever wondered if you can "get there from here" while whizzing down the Interstate and trying to decide where to get off?

The Texas Highway Department is making it easier for motorists by improving milepost markers and exit signs along the State's Interstate Highway facilities.

The familiar little green signs with the white numbers can help a driver if his car breaks down or runs out of gas. The motorist can report the nearest milepost to a service station or garage. The Highway Patrol use the markers to pinpoint accidents and to describe accident locations -- and the Department uses the reports to analyze highway hazards.

Mileposts are numbered in increasing order from

the southern and western ends of Interstate highways in Texas. For example, milepost "0" on IH 35 is at the center of the Rio Grande at Laredo. The last milepost on IH 35 would be near the south end of the Red River Bridge north of Gainesville on the Texas-Oklahoma line, 504.23 miles from the Rio Grande.

IH 10 mileposts are numbered from the Texas-New Mexico state line near Anthony, north of El Paso. Mile 880.52 is in the center of the Sabine River Bridge near Orange at the Texas-Louisiana state line.

New markers will have "mile" written at the top with mileage numbers plac-

ed horizontally below. Current markers have only numbers. It is hoped that the addition of the word mile will ease the confusion as to what those "little green signs" mean.

Milepost markers will be coordinated with the new exit signs. New exit signs for the first time will carry exit numbers based on milepost numbers.

For example, if a motorist is looking for exit number 102, he can watch the milepost numbers until he reaches milepost number 100 -- then he can expect exit number 102 which will be located at, or near, milepost number 102. The exit number and the milepost number will always be the same.

All the three types of exit signs will carry exit numbers: The advance guide sign that tells how far to the exit and bears the route and destination, the exit direction sign that repeats the route and destination, and the exit sign near the off ramp.

Doors Of Yoe

By Marilyn Hawk

This last week has proved to be a real task for the very act of sitting. Last Thursday I made an emergency room visit for the removal of a toothpick lodged in my posterier end.

Yoe High has had an invasion of humming birds. Mrs. Green discovered one in her room and was at a complete loss as to what to do about it.

Coach Cauley apparently teaches more in Yoe High than athletics. Call his office sometime to hear how the phone is answered.

Students applying for the Alcoa Scholarship made a visit to Rockdale Monday to take a test. Michael Trdy, what happened to you on the way back?

The Informed Consumer

Thousands of Texans have received letters or legal appearing documents recently stating that the sender has in his possession a copy of a will on an estate under probate. Usually these originate from an out of state source.

Of course the deceased has the same last name as the recipient. While there is usually some disclaimer such as "we are not attempting to state that the provisions set forth in said will have a reflection to you", just the opposite is clearly implied by the correspondence.

Typically the amount of the estate is not set forth but the impression is given that it is large. All of this conjures up a vision of inheriting a large sum of money from some unknown rich relative.

Not long ago thousands of families throughout the nation named Kelly received offers to provide information which could assist them in establishing a claim to an estate of more than \$50,000 left by a Mary Kelly.

An investigation disclosed that every Kelly listed in certain telephone books received the same offer. And while the cost for the information was only \$10, it still was a long shot bet that any of the Kellys contacted would be entitled to any money.

Just as in the Kelly case, operators of schemes such as this normally sell information to literally thousands of families, usually selected at random, with no thought or intention that they may in fact be in line to inherit anything of value.

The cost of these worthless papers normally range from about \$6 to \$12. For

this reason many unknowing people are willing to take a chance and then are reluctant to complain when they find they have been cheated.

Remember, judicial authorities make a thorough search to determine the whereabouts of true missing heirs. If you are approached on a missing heir scheme, resist the urge to get something for nothing. Don't send your money. Instead, forward the letter to my Consumer Protection Division at P. O. Box 12548, Austin, Texas 78757.

Prison Rodeo To Feature All-Convict Band, Singers

By Mrs. J. P. Wise

The E. L. McIntosh family was called to Mission this week for the funeral of his brother

Mr. and Mrs. Herbert Thweatt and Randy of Austin spent the weekend with his mother, Mrs. Leota Thweatt.

John Hugen of Dallas visited in Maysfield Saturday afternoon.

Mr. and Mrs. Tommy Vaughn visited Mrs. W. C. Cooper on Thursday.

Mrs. Dottie Wiese of Calver was a visitor of Mrs. Cooper on Friday and they both visited Miss Nellie Moore in Rosebud Nursing Home.

Mr. and Mrs. Larry Thweatt of Austin visited his mother, Mrs. Leota Thweatt, Sunday.

Jim Reynolds and Danny Thweatt of Houston were visitors with Danny's parents, Mr. and Mrs. Dock Thweatt.

The Tommy Gleason family were visitors here this weekend.

Exciting unusual events will highlight the 1972 edition of the Annual Texas Prison Rodeo which this year will for the first time feature events for convict women, it was announced by Jim Batten, rodeo supervisor for the Texas Department of Corrections.

Held in the prison stadium here each Sunday in October, this year's event will be an all-convict show, without the usual free world country and western stars as special guests.

Instead, Batten said, the Prison Rodeo will highlight convict bands and convict singers, who, Batten said, "are better than most guest stars who have appeared in previous rodeos."

"In a nut shell, the 1972 Texas Prison Rodeo will be a return to the original concept of a prison rodeo -- with all convict performers," Batten added.

Rough and tough convict cowboys will be joined by convict cowgirls bands and

singers for a full-scale fast-moving two hour show that promises to be the "biggest, fastest and most exciting entertainment spectacle ever presented in the long history of these annual events," Batten said.

In addition to the rodeo, which begins at 2 p.m., there will be a host of thrilling midway acts outside of the stadium from 9 a.m. to noon each Sunday. A pre-rodeo show will also be included in the entertainment package from 12:30 p.m. until showtime.

Batten said that ticket sales are progressing ahead of the 1971 show, which was a record year. Reserved seat tickets at \$3, \$4, \$5, and \$5.50 for box seats (including children) may be obtained by writing Texas Prison Rodeo, Box 99, Huntsville, Texas 77340.

Net proceeds from ticket sales are earmarked for rehabilitative services for more than 16,000 inmates of the state's sprawling prison system.

Cotton Report

Sample receipts remained steady as fair weather allowed harvesting to continue at a rapid pace in most of the area serviced by the Austin Cotton Classing Office, reports J. B. Russ, Officer In Charge.

According to the USDA's Agricultural Marketing Service harvesting in the Winter Garden and Upper Coastal Bend areas is virtually complete with the Taylor area about 85 percent gathered. Amounts harvested in other areas range from 25 percent harvested in the Brazos River Bottom to 60 percent in the Crockett vicinity.

Quality statistics for the week ending September 22 show little or no change from the previous week. Fourteen percent of the cotton was classed as Strict Low Middling, 38 percent Strict Low Middling Light Spotted, 25 percent low Middling Light Spotted, and 4 percent was classed in the Spotted grades.

Twenty-eight percent of the cotton classed was reduced in grade due to bark or grass. Staple length distribution showed 28 percent staple 31, 35 percent staple 32, 10 percent staple 33, and 24 percent staple 34 or longer.

The micronaire readings continue to be good with 86 percent of the cotton reading in the desirable range of 3.5 - 4.9. Twelve percent read 5.0 and above.

The Pressley fiber strength tests conducted by the USDA's fiber laboratory at College Station shows that the average strength remained about the same as a week ago.

Cotton markets continue to be fairly inactive. Eighteen to 22.00 cents per pound was paid for most grades offered with staple lengths of staple 30 through staple 32.

Open House

The owners and staff of the Colonial Nursing Home, East 10th St. at Davis, cordially invite you to attend the open house of our new addition

SUNDAY, OCTOBER 1, 1972

2 P.M. to 5 P.M.

Some people can really talk you to death.

Drivers who insist on facing their audience while they talk--instead of the road ahead--can be deadly bores. Even their funny stories can turn tragic in a hurry. A punch line can be killed instantly by a car that stops suddenly, an intersection, a curve in the road. By anything that gets in the way.

No one is safe with drivers like this. Neither passengers or people in other cars...nor pedestrians. If you know someone who has this deadly habit, think about the consequences.

Straighten him out or refuse to ride with him. Your new car dealer wants to see our highways

safe. And more important, he wants to see you safe, whether you're behind the wheel or just a passenger.

So join the battle against careless talkers. Help them face their tremendous responsibilities--and the road ahead--and all their stories will wind up with a happy ending.

Dealers displaying this seal subscribe to the NADA Code of Business Practices. Address correspondence to Consumer Relations Service, 2000 "K" Street N.W., Washington, D.C. 20006

EMERGENCY ESCAPE LADDER -- An idea from a University of Bridgeport student may make the fireman's net obsolete. An emergency escape ladder contained in an aluminum shutter is one of six winning designs in the fourteenth annual Student Design Program sponsored by Aluminum Company of

America. The designer, Michael McManus, Bridgeport, puts his design to a practical test. The slats of the shutter act as the rungs of the ladder and drop into place as the shutter is swung away from the window. ALCOA PHOTO

Coast Guard Death Comes Early To Austrians, Survey Shows

The United States Coast Guard Academy is now accepting and processing applications for appointment as cadet for the class of 1977.

Appointments to the Coast Guard Academy are tendered solely on the basis of an annual nationwide competition with no congressional appointments of geographical quotas.

Applications for appointment must be submitted to the Director of Admissions, U. S. Coast Guard Academy, New London, Conn., 06320 prior to December 15, 1972.

Candidates must arrange to participate in the prescribed College Entrance Examination Board tests prior to or including the December 2, 1972 examination date. These tests must include the Scholastic Aptitude Test, the English Composition Achievement Test and either Level I or Level II Mathematics Achievement Test.

The competition for appointment as a cadet is based on the candidate's high school rank, his performance on the college boards and his leadership potential as demonstrated by his participation in high school extracurricular activities, community affairs or part-time employment.

To qualify for the competition, an applicant must be unmarried and must have reached his 17th but not his 22nd birthday by July 1, 1973. The minimum educational requirement is a high school diploma; however, high school seniors assured of graduating by June 30, 1973, are eligible to compete provided they have at least 15 credits by that time.

VIENNA
Death comes early to many Austrians - and often more painfully, violently or prematurely than to other Europeans.

For in this land of apfelstrudel, Staus watzes and wienerschnitzel, statistics show that the average Austrian lives dangerously.

An infant mortality rate among the highest in western Europe is just one of the facts of Austrian life that has caused tremendous unease among health authorities here. But Austria also has the worst European cancer death rate, and the proportion of the Austrian population meeting a violent end is higher than elsewhere in Europe.

Out of 100,000 Austrians, 97 either commit suicide, have a fatal accident, get murdered or die through manslaughter each year. This was the fate of one in 14 Austrians who died in 1970, according to the latest available figures.

It amounts to more than double the rate of violent deaths recorded in Britain, and the only European country approaching this record is West Germany with a figure some 13 per cent lower than Austrias.

One of the safest places in Austria is Vienna, where people live longer and violent deaths occur at a rate beneath the national average.

But while the average Viennese may escape the dangers of the automobile, he may in his old age fall prey to thoughts of voluntarily ending it all.

The Austrian capital boasts the highest suicide rate in the country, a fact which experts say is mainly caused by the sense of isolation felt by the old.

The after-effects of World War II are still making themselves felt, with old people forced into a life of loneliness because their marriage partners or immediate family were killed in the 1940s.

But these unnerving sta-

tistics are also explained by the fact that Vienna is a city where the young are heavily out-numbered.

In an attempt to ease the problems of Austria's senior citizens, the science ministry has just launched a research program to examine how old people can be re-integrated into society.

In 1970, some 1,800 people committed suicide in Austria, and about two-thirds of them were men.

Vienna also claims another unhappy record - there is no other European city with such a high infant mortality rate. In Austria 26 babies die on average every year out of 1,000 newly-born children. Only southern European nations, such as Portugal, Italy and Spain, have worse records.

One of the difficulties facing health authorities here is the reluctance of Austrian mothers to go to a pre-natal clinic, where doctors might otherwise be forewarned of potential complications.

A leading Austrian doctor has also expressed concern about the way the Viennese treat their offspring. He claimed 85 per cent of children here were beaten within the first 10 months of their life.

It is a similar tale when it comes to cancer. Austria possesses the worst cancer death rate in Europe - if not in the whole world.

In a country well-known for its stolid cuisine and excellent wines, cancer for some unknown reason strikes hardest at the digestive system -- and the sexual organs.

In 1970, some 4,000 people died of stomach cancer, and experts have put forward several theories - as yet unproved - including the Austrians predilection for smoked foods.

Out of every 100,000 an average of 262 fell victims to cancer that year, which puts Austria well ahead of Sweden, Switzerland and the United States.

Doctors again point to the Austrian's hesitation over seeking medical attention. The majority leave it until the disease is in an advanced stage. "People are scared of their own fears," commented one leading Austrian doctor recently.

Argentine Film Rivals 'Godfather'

By Stewart Russell

BUENOS AIRES

When the film version of "The Godfather" opened here, many Argentines had that "seen it before" feeling.

A homemade variation on a similar bloody theme had been filling theaters here for months.

Called simply "La Maffia," it tells the story of a fight to the death between rival groups of Italian immigrants in the industrial port of Rosario, a city of about 800,000 people on the river Parana, 200 miles northwest of Buenos Aires.

The film is based on fact. The Rosario war exploded in the 1930s after a squabble within the city's most powerful Mafia "family" over the botched kidnap-murder of the teen-age son of a wealthy local businessman.

Like "The Godfather," "La Maffia" is fashionably realistic in its treatment of various forms of violent death. Blood spurts, oozes or drips in vivid color into all four corners of the wide screen.

It also contains some extremely frank sex scenes, in keeping with a rapid move towards greater permissiveness by Argentina's censors.

"WE NEED REAL ESTATE LISTINGS"

CARD OF THANKS-

We wish to express our
appreciation to the staffs of
St. Edward Hospital in Cam-
eron and Halbert Hospital at
Rosebud, and to all friends
who expressed sympathy to
us at the time of our loss.
Your thoughtfulness will al-
ways be remembered.

The family of
Lela V. Gann

I wish to express my sin-
cere appreciation to the
friends and relatives who
were so kind and thoughtful
during my convalescence at
St. Edward Hospital. I es-
pecially want to thank the
staff at St. Edward Hospital,
Dr. S. H. Richardson and Dr.
R. Cruise for their kindness
and attention.

Mrs. E. L. Kahler

THE VALUE LEADER

P.S. BEEF ROUNDUP!

*Personally Selected for You by Our Own Meat Specialists

SOME STRAIGHT TALK ON FOOD PRICES!

22.2%
In 1950

16.3%
In 1971

Yes, food prices have gone up. But the average American's paycheck has gone up faster. Result: you spend a smaller percentage of your paycheck for food than ever in history. In 1947 Americans spent 25% of their paycheck for food. By 1950 this had dropped to 22.2%, by 1959 to 20%, and in 1971 food expenses took only 16.3% of the average American's paycheck. That's amazing progress when you consider that many people of the world spend up to 70% of their income for food.
